3. **UPDATE AND OVERVIEW OF CREATIVE PLACEMAKING STRATEGY DOCUMENT PRODUCTION:**

Goralnik provided an update on the anticipated timeline for the production and adoption of the Creative Placemaking Strategy, and an overview of the committee (and some of its individual members') roles in that process over the next several months. He indicated that members could review the Recommendations chapter, which includes a proposed revision to the previously adopted vision statement, prior to the next CPSAC meeting in May. Committee members provided the following input on the draft document:

- Will Fassett identified that a primary audience's for the document is external, especially with regard to recommendations that require additional funding. Will suggested developing an executive summary to emphasize the implications of the final plan to the community.
- Jeanetta Phillips asked a question regarding the definition of "critical mass," as referenced in the draft document. Goger responded that the phrase refers specifically to artists who are engaged in social practice. There was a discussion about the placement of the Sierra Artist Community gallery and the potential for a specific section in the draft to give the impression that there are not currently adequate permitting guidelines.

4. **PUBLIC COMMENT:**

Goger provided an update regarding an upcoming grant that the Arts Council intends to apply to implement temporary public art that improves the pedestrian and active transportation environment.

5. **ADJOURN:** Goger adjourned the meeting at 1:50 PM.
